AVAILABILITY LIST

May 12, 2018

It finally looks like spring outside but many varieties are still trying to catch up after such a late start. Bloom times seem a bit behind schedule. So long as we don't heat up too quickly that will be a good thing for sales. Trucks are being scheduled into the I-91 corridor, Boston and Cape Cod, so contact us Monday if you want to get on a load.

Our Sales Yard is open and looking beautiful. The hours are 7:30-4:30 Monday-Friday and until 2:30 on Saturdays through May 21st. Any variety that we do not have at least ten of is not listed on this form but you may find it in our sales yard.

Spring color is upon us. Some varieties that look particularly good now are:

Acer palmatum varieties
Andromeda polifolia
Aronia arbutifolia
Azalea - evergreen and deciduous
Cotoneaster varieties
Cytisus varieties
Deutzia gracilis varieties
Hydrangea an. Petiolaris
Iris versicolor
Lonicera varieties
Philadelphus Janet Reidy
Rhododendron Large Leaf
Rhododendron Windbeam
Spiraea varieties
Syringa varieties
Vaccinium varieties
Viburnum opulus Sterile

Weekly Special

25% off the following varieties with a minimum of 10 per variety for this week only. Please call for pricing.

Azalea nudiflorum	2 gal
Chaenomeles 'Cameo'	2 gal
Juniperus procumbens Nana	2 gal
Potentilla 'Primrose Beauty'	1 gal
Thuja occ. 'Nigra'	3 gal

Syringa Miss Kim and meyeri look great right now. Beautiful plants, especially the 3g. Loaded with buds that are starting to bloom.

We still have a nice selection of Leucothoe available in 2g. The axillaris are particularly nice with a very full head. Silver Run is a variegated form that is a better grower than Rainbow.

We have some very nice looking 1g deciduous Azaleas that we added into the list last week. Many are showing some color or are ready to pop.

May Deliveries

We will have frequent deliveries all month. Get your order to us by Monday 2 pm and we will deliver before the weekend.

Our Large Leaf Rhodies are getting ready to show color. Best we have had in years. Most 2g are going 18-24".

By the number of flowers I see on all sizes of Vaccinium corymbosum varieties I would have to say we are going to have an amazing fruit set. Nice size plants still available in 1, 2 and 3g. You can order by variety or we can select a nice mix for you of early, mid and late fruiting forms.
