## Mini Garden Collections

We are excited to present our new line of mini's. These adorable little plants lend themselves to rock gardens, window boxes, containers, fairy gardens, train landscapes, patio plantings and other imaginative uses. We are offering seven themed "collections" of 15 quart size plants per tray. Each tray will have 5 varieties with 3 plants of each variety. Some collections may have substitutions available so that your collections could be customized to specific needs. We strongly suggest using an anti-dessicant for winter protection. Please call our office for pricing.
